

Class of 1995 Fallen Heroes Scholarship of the Peay Endowment for Academic Excellence

Excellence comes with a cost. Prestigious colleges and universities like VMI compete for the most qualified professors, the very best students and the private funding necessary to maintain distinguished academic programs. The financial investment by families for college degrees across our nation is significant. The need to enhance our current program - even from a position of strength - remains constant.

The Class of 1995 Fallen Heroes Scholarship of the Peay Endowment for Academic Excellence has been initiated through the generosity of '95 donors. The Class of 1995 hopes that the scholarship will memorialize the life and service of deceased brother rats and ensure that future generations of VMI cadets are afforded the same unique educational experience that all the brother rats in '95 shared.

The purpose of this scholarship is to provide financial assistance to cadets which will be awarded at the Institute's discretion.

This is a full scholarship program designed to attract the very best young men and women nationally who possess qualities of character associated with the Institute's 14th superintendent and have demonstrated exceptional leadership, academic excellence, athletic commitment and interest in national service. Additionally, the Institute may also designate certain rising 2nd and 1st Class cadets as Peay Scholars.

Our goal is to raise \$750,000 in order to secure matching funds of \$250,000 which will fully fund the scholarship.
